

A Better Way to a Better Life

Dear Families,

Welcome to Sovereign Health Family Program

We want to thank you for attending the Family Program at Sovereign Health. Our priority is to offer a safe and therapeutic environment for your family to heal and recover. We believe families can make a significant difference in the outcome of treatment and can be a critical component in the recovery process. The goal of the Family Program is to provide the support, education, and tools needed to assist in your loved one's recovery. We have included some helpful materials for you on local restaurants and hotels, program information, and additional resources. Please feel free to reach out to our staff if we can be of any further assistance. We understand that coming into treatment can be stressful and difficult for the entire family, and we strive to make your experience as valuable as possible.

We thank you again for taking the time out of your schedule to come and participate in your loved one's recovery.

Sincerely,

Sovereign Health Staff
